FALL OF 1896.

*Semi-annual Trade List*

OF THE

*RUMSON & MONMOUTH  
NURSERIES.*

(Established 1854).

(Incorporated 1894).

THE LOVETT COMPANY,

LITTLE SILVER,

NEW JERSEY.

HEADQUARTERS FOR  
STRAWBERRY-RASPBERRY.

LOGAN BERRY (*Raspberry-Blackberry*).

SACALINE, home-grown roots.

JERSEY MARKET STRAWBERRY.

PHOENIX AND MILLER RASPBERRIES.

MAXWELL'S EARLY AND LOVETT'S BEST BLACKBERRIES.

PLYMOUTH ROCK & CENTENNIAL CHERRIES.

NUT TREES.

PEACH TREES.

HARDY ORANGE (*Citrus trifoliata*).

HARDY HERBACEOUS PLANTS.

While we exercise the greatest care to have all our trees and plants true to label and hold ourselves prepared, on proper proof, to replace any that may prove otherwise, we do not give a warranty, expressed or implied; and in case of an error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than that which was paid for same.

## PLEASE OBSERVE:

This list is intended for Nurserymen, Seedsmen, Florists and Dealers in Nursery stock only; and abrogates all previous quotations. In it we offer only such stock as we have in quantity—for other varieties see our Descriptive Catalogues. The prices are for the quantities specified; but six, fifty and five hundred of a class will be supplied at the dozen, hundred and thousand rates respectively. On bills of two hundred dollars or more in one shipment all articles will be supplied at the lowest rates quoted.

## OUR NURSERIES

Cover 250 acres of land, with ten large greenhouses. They are located one mile from Little Silver Depot, thirty miles from NEW YORK CITY, five miles from LONG BRANCH and two miles from RED BANK. To reach them **from New York** take the Central Railroad of New Jersey, foot of Liberty Street, or the Pennsylvania Railroad, foot of Cortlandt or Desbrosses Streets. **From Philadelphia** take the Pennsylvania Railroad, Broad and Market Streets, or the Philadelphia and Reading Railroad, Bound Brook route. In all cases get tickets for **Little Silver** (good on either road). Or, the Nurseries may be approached via the New Jersey Southern Railroad, and by steamers from New York to **Red Bank**.

## THE PACKING SEASON

Usually opens in Autumn about the first of October, and in the Spring about the first of March. All goods are carefully packed in boxes or bales, **for which we make a charge sufficient to cover cost of material.**

## OUR SHIPPING FACILITIES

Owing to our proximity to New York City and being located upon the PENNSYLVANIA RAILROAD, the CENTRAL RAILROAD OF NEW JERSEY, the NEW JERSEY SOUTHERN RAILROAD, with Steamboat Lines to New York City, are unsurpassed for securing quick and cheap transportation to all points North, South, East and West.

## WHEN NO ROUTE IS NAMED

We forward by the one which in our judgment is the best, but purchasers will confer a favor by naming the mode of conveyance (whether by Express or Freight) and by what route they prefer to have the goods forwarded. *Afer delivering to forwarders, all articles are entirely at the risk of the purchaser;* and should any loss or delay occur, the forwarders alone must be held responsible. All goods are delivered at Express Office or Freight Depot at Little Silver free of cartage. Parties desiring stock shipped by express C. O. D. must remit one-quarter the amount of their purchase before shipment.

## CLAIMS

If any, must be made within fifteen days after receipt of stock. Should a mistake occur, we wish to be informed of it at the earliest possible moment, that the same may be rectified without delay.

## TERMS CASH.

We publish the following Catalogues:

**Lovett's Guide to Horticulture**, descriptive and illustrated, with colored plates, in the Spring of each year, 10 cents.

**Lovett's Illustrated Catalogue of Trees, Plants, Bulbs and Seeds**, each Autumn, free.

**Lovett's Manual of Ornamental Trees and Plants**, a large and handsome book of 100 pages, richly illustrated throughout; the most elaborate, accurate and complete of its kind ever issued. With beautiful colored plates, 15 cents.

**Pamphlet of Pot-grown and Layer Strawberry Plants, Celery and Cabbage Plants, etc.**, with instructions for their cultivation, each Summer, free.

SEMI-ANNUAL TRADE LIST, Spring and Autumn, for the Trade only, free.

## THE LOVETT COMPANY.

Telegraph, Express, Money Order and Post Offices all at LITTLE SILVER, N. J.

October, 1896.

# FRUIT DEPARTMENT.

For names and descriptions of varieties see our Descriptive Catalogue. The prices of Fruit Trees are for our selection of varieties, but we will comply with the wishes of purchasers, so far as the position of our stock will permit. We cannot supply lists of selected varieties, either of Fruit or Ornamental Trees and Plants, at wholesale rates; but on such orders we will allow the Trade as great a discount on retail prices as the extent of the order will justify.

## PEACHES.

Doz. 100 1000

Our stock of Peach Trees is large and exceedingly fine; bright in color, smooth, straight and well furnished. Our stocks are grown from Southern natural stones exclusively, and we grow our trees upon land where Peach Trees have never before been grown. We know our trees to be absolutely free from yellows or any other disease, scale or insect. We invite special attention to our June budded trees which are large and exceedingly fine.

## STRAWBERRY-RASPBERRY.

The most unique and at the same time the most beautiful berry of any kind that has as yet appeared. It comes to us from Japan, and is said to be a hybrid between the Strawberry and Raspberry. Whether this statement is correct or not we are unable to say, but that the plant is intirely hardy without protection and a prolific yielder, we can bear testimony from personal observation of plants in our trial grounds. In habit of growth the plant is distinct from both the fruits named. The root is perennial, throwing up numerous strong branching shoots, which produce large, beautiful berries from early in July until freezing weather. The foliage is composed of compound leaves formed of five or seven leaflets that have a ridged or uneven surface, light green in color, bright, clean, cheerful and pleasing, and exempt from attacks of all insects and diseases. The berries are globular, slightly oblong in

form, ranging in size from  $1\frac{1}{4}$  to  $1\frac{1}{2}$  inches long and one to  $1\frac{1}{4}$  inches in diameter. The blossoms resemble in appearance small single roses, snow white in color and are as richly and deliciously fragrant as Gardenias.

Strong Pot-grown plants, doz., \$1.00; 100, \$5.00; 1000, \$45.00.

Field grown plants, " .60; " 3.50; " 25.00.

Colored plates, for Agents' use, very fine. 100, \$1.50; 1000, \$10.00.

# LOGAN BERRY.

In the Logan Berry, which is a true hybrid between the Red Raspberry and Blackberry, we have a fruit destined to mark an epoch in fruit culture. Although produced in California, it has proved entirely hardy at the East and North where it has been fully tested, having been subjected to a temperature several degrees below zero, in an exposed position without the slightest protection, coming through the winters with every branch alive to the tips.

The berries are of enormous size—fully equalling the largest blackberries, which they resemble in form and structure *but*

*are deep reddish-maroon in color.* In flavor, rich and sprightly—a mingling of the raspberry and blackberry, mellowed and refined, but distinct from either—melting and without core. In firmness, like a blackberry and keep a long time, either gathered or upon the bush, after ripe, before spoiling. The flavor is so luscious, novel and rich, the berry cannot fail to please everybody as a dessert fruit. For canning it is superior to all the other small fruits, and for jellies and jams it is said to be unequalled also.

The canes, which are exceedingly prolific, are of strong vigorous growth and are clothed with an abundance of large, dark green, leathery foliage and are semi-trailing in habit. (See accompanying illustration which was drawn from nature). They are without the large sharp thorns of the Blackberry but have numerous fine red spines, like those upon the Red Raspberry. What gives special value to this novel fruit is its earliness; ripening as it does at the close of the strawberry season, and in advance of all but the very earliest raspberries. The past season we gathered ripe berries of it on June 20th, in 1895 on June 24th; it continuing each year to give us ripe berries for three weeks, perfecting all its fruit, even the last, to full size, firmness, color and flavor.

We have now thoroughly tested this new fruit in field culture and speak from personal observation of its hardiness and other valuable properties. By reason of its great and many merits, coupled with its freedom from disease or defects, we know it to be of untold value, both for the home garden and for profit.

The plants we offer were propagated from the original stock and are strictly pure and true. We caution planters against purchasing the seedling plants that are being offered by some nurseries; they are unreliable, many of them being worthless.

Good tips plants, doz., \$2.00; 100, \$12.00; 1000, \$100.00.

Colored plates, for agents' use, 100, \$1.50; 1000, \$10.00.

**SPIRÆA "ANTHONY WATERER."** "It is one of those *exceptional novelties*

that occur only at rare intervals, adding in a conspicuous way to the rich and varied flora of our gardens. It outshines all *Spiræas* in brilliancy of color, a bright crimson. It is also much dwarfer and of denser growth, and a much profuser and more persistent bloomer, and is not out of bloom during summer and autumn. It originated at Knapp Hill Nursery, and Mr. Waterer quickly perceived in the variety a *rare gem*. "As an instance of its continuous and abundant flowering character, I add, that on the last day of September I saw a large number in full bloom, and some plants, not

more than fifteen inches high, had *twenty flower clusters* open at one time, and had been *producing bloom in a like manner since June*."—*The Garden*.

Awarded first class certificate by the ROYAL HORTICULTURAL SOCIETY, and wherever exhibited.

<b>GREVILLEA ROBUSTA</b> ( <i>Silk Oak</i> ). Too much can hardly be said in praise of this wonderfully beautiful and graceful plant. It is superb for decorative purposes, growing more rapidly than any Palm and easily care for. The foliage is long and drooping, finely and deeply cut like a Fern, the young leaves being of a light bronzy shade and the tips covered with a soft down resembling raw silk. Its effect is exceedingly beautiful and it is unexcelled for house culture. Superb, well-furnished plants, 3½ in. pots, 10 to 12 in. high.....	1 25	8 00

## GLADIOLUS BULBS

Experience has proved that the climate and soil of Monmouth, here by the seaside, with our long season of growth and bright sunshine and the heat of summer tempered by the ocean, is the most favorable spot upon the globe for the perfect development of the Gladiolus.

Our bulbs are therefore not only equal, but are *superior* to those produced anywhere else in America or Europe.

**ALL COLORS MIXED; CHIEFLY RED.**

First size, 100, 75c; 1000, \$5.00.  
Second size, 100, 50c; 1000, \$3.50.

### Monmouth Strain.

Composed entirely of superb named varieties; sixty per cent white and light colored; not over twenty per cent red; balance yellow and variegated. The finest strain of Gladiolus in commerce. Particularly valuable for florist's use. First size, (*See cut*), 100, \$1.25, 1000, \$6.00.

Second size, (*See cut*), 100, \$1.00, 1000, \$4.50.

**Mad. Lemoine**, 1st size, 100, 75c; 1000, \$5.00.

Second size, 100, 50c; 1000, \$3.50.

### TUBEROSE BULBS.

Southern grown Tuberose bulbs of superior quality. They are exceedingly bright and handsome and in perfect condition, strictly true to name and pure. The average sizes are accurately shown in the accompanying illustration.

**Excelsior Pearl**, 1st size, (4 to 6 in.), 100, \$1.00; 1000, \$8.00. 2d size 3 to 4 1-2

in.), 100, 75c; 1000, \$5.00.

### CALADIUM ESCULENTUM.

1st size, 10 to 12 in. circumference, doz., \$1.00; 100, \$7.00.  
2d " 8 " 10 " " " .75; " 5.00.  
3d " 6 " 8 " " " .50 " 3.50.

### OXALIS BULBS.

Our bulbs of Oxalis are very fine and are much larger than those usually sent out, as is shown by the illustration.

**Dieppi**.....100, 20c; 1000, \$1.25.

**Lasiandra**..... " 25c; " 1.50.

### DIEPPI — OXALIS BULBS — LASIANDRIA
